

Get paid to sell the software barbers and salons already need.

No experience required. No inventory. No cold-call scripts you have to memorize. You share a link or hand over a flyer — we do the demo, the onboarding, the billing and the support. You get paid every single month that shop stays subscribed.

THE FOUNDING AMBASSADOR OFFER

\$25 bonus per activated shop
+ 15% recurring commission, every month

Bonus pays after the shop's free trial ends and their first month is paid. Rate rises to 20% at 100 referrals.

What you're actually selling

- Omni Shop Guardian is all-in-one software for barbershops and salons: online booking, an AI receptionist that answers the phone 24/7, card-holds that kill no-shows, daily closeout, expenses and tax compliance.
- Pricing is easy to say out loud: \$11/month solo, \$27/month for a shop. Free 30-day trial, no card required to start.
- Shops lose \$50-\$200 a week to no-shows and missed calls. This costs less than one haircut a month.

Who this is for

- Cosmetology and barbering students who are already in shops every day.
- Anyone with sales hustle who can walk into 10 shops on a Saturday.
- Social media people who'd rather post than knock on doors — we give you the images and captions.
- Current barbers and stylists who want a check that keeps coming after the chair is empty.

How you get paid

The money, step by step

- 1. You share your personal link or QR poster. Every tap is tracked to you automatically.
- 2. A shop signs up and starts their free 30-day trial. Nothing owed by anyone yet.
- 3. Trial ends, the shop pays their first month. Your \$25 activation bonus posts automatically.
- 4. Every month after that, 15% of what they pay lands in your balance — automatically, forever, as long as they stay.
- 5. Payouts go out in batches once your balance clears \$20. Sent as a digital gift-card style payout, usually within one business day.
- 6. Cross \$500 in a year and we collect a W-9 — standard IRS stuff, handled inside your dashboard.

Real numbers (not hype)

10 shops signed up in your first month: \$250 in bonuses, plus about \$27-\$40/month recurring — forever.

50 shops over a year: \$1,250 in bonuses, plus roughly \$135-\$200 every month without doing anything new.

Hit 100 referrals and your rate goes to 20% on everything new.

What we hand you on day one

- Your own tracked referral link and a printable QR poster with your name on it.
- A one-page sell sheet and a full-color flyer for door-to-door.
- Ready-to-post social images and pre-written captions with your link already in them.
- A live dashboard: taps, sign-ups, which flyer or post is actually working, and your balance.
- A payout guide and the W-9 form, upload right from your dashboard.

Rules of the road

- No spam, no fake reviews, no promising features we don't have.
- Don't bid on our brand name in paid ads.
- Self-referrals don't count. Real shops only.

Your first week playbook

- Day 1 — Apply at omnishopguardian.app/join-ambassadors. Approval is usually same day. Grab your link and poster.
- Day 2 — Post one of our images with your link. Tell people what it does in your own words.
- Day 3 — Walk into 5 shops. Ask for the owner. One sentence: “Are you losing money to no-shows and missed calls?” Leave the flyer.
- Day 4 — DM 10 barbers or stylists you already follow. Attach the sell sheet.
- Day 5 — Ask your barber, your stylist, your nail tech. They all know three shop owners.
- Weekend — Barber school, beauty supply store, expo, flea market. Tape up the QR poster where it's allowed.

The 30-second pitch

“Quick question — how many no-shows did you eat last week? There's software called Omni Shop Guardian: it holds a card when they book, and an AI answers your phone when you're in the chair. Eleven bucks a month, free for 30 days. Scan this and you're in.”

Answers to the three things they'll say

- “I already use Booksy/Square.” — Great, this runs alongside it. It's the front desk, the closeout and the taxes, not just the calendar.
- “I'm not techy.” — Setup is a wizard, and the AI receptionist works off a phone number. Free 30 days to prove it.
- “What's it cost?” — \$11 solo, \$27 for a shop. Less than one haircut.
